Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “Will Alberta vote to leave Canada in the next referendum before the next federal election?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi), a registered DCM, hereby notifies the Commission that it is self-certifying the “Will Alberta vote to leave Canada in the next referendum before the next federal election?” contract (Contract). The Contract will initially be listed on May 26, 2025. The Exchange intends to list the contract on a **custom ▾** basis.

Along with this letter, Kalshi submits the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Xavier Sottile
Head of Markets
KalshiEX LLC

KalshiEX LLC

Official Product Name: “Will Alberta vote to leave Canada in the next referendum before the next federal election?”

Rulebook: ALBERTAREF

Summary: Albertan referendum

Kalshi Contract Category: Political Decision ▾

Kalshi Internal Category: Politics ▾

May 23, 2025

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will Alberta vote to leave Canada in the next referendum before the next federal election?” Contract is a contract relating to Politics ▾.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange's Website. A new Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of

the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE
ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE
40.2, 17 C.F.R. § 40.2

Based on the above analysis, the Exchange certifies that:

- ☐ The Contract complies with the Act and Commission regulations thereunder.
- ☐ This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix A - Contract Terms and Conditions

Appendix B (Confidential) - Further Considerations

Appendix C (Confidential) - Source Agency

Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

Official Product Name: “Will Alberta vote to leave Canada in the next referendum before the next federal election?”

Rulebook: ALBERTAREF

ALBERTAREF

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the official results of any referendum on Alberta separation from Canada held after Issuance and before the next federal election in Canada, as documented by the Source Agencies. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency: The Source Agencies are Elections Alberta, the Government of Alberta, The Globe and Mail, CBC News, CTV News, Global News, the Calgary Herald, the Edmonton Journal, The New York Times, the Associated Press, Bloomberg News, Reuters, Axios, Politico, The Information, The Washington Post, The Wall Street Journal, ABC, CBS, CNN, Fox News, MSNBC, and NBC.

Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that a referendum on Albertan separation from Canada has been held after Issuance and before the next federal election in Canada, and the official results show that the vote for “Yes” meets or exceeds the threshold required for the referendum to succeed as specified in the referendum legislation or regulations.

Specifically:

- The referendum must be officially sanctioned by the Government of Alberta (whether initiated by the government or through a successful citizen petition under the Citizen Initiative Act)
- The referendum question must ask whether Alberta should separate from, leave, secede from, or become independent from Canada
- The "Yes" vote must meet or exceed the threshold for success as defined in the enabling legislation, regulations, or official referendum documents (whether that threshold is 50%+1, 60%, or any other specified percentage)
- If no specific threshold is defined, a simple majority (50%+1) of valid votes cast will be considered the threshold
- The referendum must be completed with official results announced before the writ is dropped for the next federal election

Examples that would resolve to Yes:

- A referendum asks "Should Alberta become an independent country?" and 51% vote Yes, where the threshold was set at 50%+1
- A referendum asks "Do you agree that the Province of Alberta shall become a sovereign country and cease to be a province of Canada?" and 65% vote Yes, where the threshold was set at 60%

Examples that would NOT resolve to Yes:

- A referendum is announced but not held before the next federal election
- A referendum is held but fewer votes than the required threshold vote "Yes" (e.g., 58% vote Yes but the threshold was 60%)
- A referendum is held on Alberta sovereignty within Canada but not on separation
- A referendum is held by a non-governmental organization without official government sanction
- A referendum is scheduled but postponed until after the next federal election
- Multiple referendum questions are asked and the separation question does not meet the threshold, even if other questions do

Minimum Tick: The Minimum Tick size for the Contract shall be \$0.01.

Position Accountability Level: The Position Accountability Level for the Contract shall be \$25,000 per strike, per Member.

Last Trading Date: The Last Trading Date of the Contract will be the same as the Expiration Date. The Last Trading Time will be the same as the Expiration time.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The latest Expiration Date of the Contract shall be one week after the date of the next Canadian federal election. If an event described in the Payout Criterion occurs, or a referendum fails, expiration will be moved to an earlier date and time in accordance with Rule 7.2.

Expiration time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is \$1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(d) of the Rulebook. If an Expiration Value cannot be

determined on the Expiration Date, Kalshi has the right to determine payouts pursuant to Rule 6.3(b) in the Rulebook.
