Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “Will <product> have a price increase before <date>?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi), a registered DCM, hereby notifies the Commission that it is self-certifying the “Will <product> have a price increase before <date>?” contract (Contract). The Contract will initially be listed after close-of-business on **July 2, 2025**; it is listed as the day after because of limitations of the Commission's online submission portal. The Exchange intends to list the contract on a **custom** basis. The Contract’s terms and conditions (Appendix A) includes the following strike conditions:

- **<date>**
- **<product>**
- **<percentage>**

Along with this letter, Kalshi submits the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Xavier Sottile
Head of Markets
KalshiEX LLC

KalshiEX LLC

Official Product Name: “Will <product> have a price increase before <date>?”

Rulebook: PRICEINCREASE

Summary: Product price increase before specified date

Kalshi Contract Category: Commodity Price

Kalshi Internal Category: Financials

July 2, 2025

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will <product> have a price increase before <date>?” Contract is a contract relating to Financials.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange’s Website. A new Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of

the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE
ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE
40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- ☐ The Contract complies with the Act and Commission regulations thereunder.
- ☐ This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix A - Contract Terms and Conditions

Appendix B (Confidential) - Further Considerations

Appendix C (Confidential) - Source Agency

Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

Official Product Name: “Will <product> have a price increase before <date>?”

Rulebook: PRICEINCREASE

PRICEINCREASE

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the official retail price of <product> in the United States as set by the manufacturer or primary service provider after Issuance and before <date>. For physical products, this refers to the manufacturer's suggested retail price (MSRP). For services or subscriptions, this refers to the standard publicly advertised price. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency: The Source Agencies are the official website of the manufacturer or service provider of <product>, official press releases from the company, The New York Times, the Associated Press, Bloomberg News, Reuters, The Wall Street Journal, CNBC, TechCrunch, The Verge, Ars Technica, and official announcements through verified company social media accounts.

Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

<product>: <product> refers to a specific product, service, or subscription tier specified by the Exchange. Must include sufficient detail to identify the exact offering (e.g., "Netflix Standard Plan (2 screens, HD)" rather than just "Netflix"). May include physical goods, digital products, software, subscriptions, or services. For products with multiple variants, the specific variant must be identified (e.g., "iPhone 15 Pro 128GB" not just "iPhone 15 Pro").

<date>: <date> refers to a calendar date specified by the Exchange. The Exchange may list iterations of the Contract corresponding to variations of <date>.

<percentage>: <percentage> refers to a specific percentage threshold specified by the Exchange (e.g., "any increase," "5% or more," "between 10-20%"). If no percentage is specified, any price increase of \$0.01 or more qualifies.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that the official United States price of <product> has increased by <percentage> compared to its price at Issuance, with such increase announced or implemented after Issuance and before <date>. Price increases as a result of indexation to inflation count as price increases.

The following specifications apply:

- The price comparison baseline is the official U.S. price at the time of Contract Issuance

- For subscription services, only the recurring subscription fee for new users is considered (not one-time charges, activation fees, or taxes)
- Promotional or limited-time pricing is not considered; only the standard non-promotional price
- For products sold through multiple channels, the manufacturer's direct-to-consumer price or MSRP is used

Examples that would resolve to Yes for <product> being "Netflix Standard Plan" with <percentage> being "any increase":

- Netflix announces the Standard Plan will increase from \$15.49 to \$17.99 per month
- Netflix implements a \$1 increase to the Standard Plan effective immediately
- Netflix announces Standard Plan increase for "new subscribers" that will eventually apply to all

Examples that would NOT resolve to Yes for <product> being "Netflix Standard Plan" with <percentage> being "any increase":

- Netflix increases prices in Canada but not the United States
- Netflix adds a new "Standard Plus" tier but keeps Standard Plan at the same price
- Third-party gift card sellers increase their prices for Netflix gift cards
- Netflix runs a limited-time promotion reducing the Standard Plan price
- Currency fluctuations make Netflix more expensive in USD when paid through foreign subsidiaries

Minimum Tick: The Minimum Tick size for the Contract shall be \$0.01.

Position Accountability Level: The Position Accountability Level for the Contract shall be \$25,000 per strike, per Member.

Last Trading Date: The Last Trading Date of the Contract will be the day prior to <date>. The Last Trading Time will be 11:59 PM ET.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The latest Expiration Date of the Contract shall be one week after <date>. If an event described in the Payout Criterion occurs, expiration will be moved to an earlier date and time in accordance with Rule 7.2.

Expiration time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is \$1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(d) of the Rulebook. If an Expiration Value cannot be determined on the Expiration Date, Kalshi has the right to determine payouts pursuant to Rule 6.3(b) in the Rulebook.
